ROOMS & SPACES

TECHNICAL DETAILS

Production

The Arena features an impressive speaker system– the Martin Audio Multi-cellular Array system. The audio system has been acoustically engineered by Martin Audio and will provide premium audio quality for any entertainment format or music type. Lighting includes 24 Martin wash lights to fully cover the stage. The three large on stage screens give flawless projection from the brand new EPSON 11000 ansi lumen projectors. Each screen can work separately or for a grand statement they can feature the same projection.

Stage

The stage is 9 metres deep, by 16 metres wide, and 1.1 metres high, with a stage to ceiling height of 9 metres. It has a motorised front curtain, and manual side and back curtains.

Rigging

Clients need to submit a rigging plan for approval.

Loading Dock

The loading dock is situated at the Southern end of the building, on Bull St. It has two loading doors with a flat load-in to The Arena.

Lighting

NEX has a house lighting system that includes a mixture of Rush profile and wash, as well as lights that can be dimmed if required.

Dressing Rooms

The Arena has three dressing rooms, which includes a bathroom and two separate showers.

Seating

Temporary seating is available with a total capacity of 1,100.

Curtains and Drapes

There is a curtain track on each of the western and eastern sides of the room that allows a reduction in the size of The Arena. These tracks are fitted with black wool curtains.

Foyer

A portable Guest Relations desk and merchandise outlets are available to be placed in the foyer. The foyer has a separate lights dimming system.

Air Conditioning

The Arena and The Avenue fully air-conditioned.

Public Address System

There is an in-house PA system that provides coverage to the auditoriums and foyer.

ROOMS & SPACES
